Autres sérotypes, autres maladies?

- «**Among pediatric cases, we noted a numerically reduced prevalence of pneumonia compared with other syndromes.**» *M. Moore*
- «**Infections with non-PCV13 strains seldom manifest as pneumonia and often affect children with underlying diseases.**» *S. Browall*
- «**Invasive disease potential was lower for non-PCV13 serotypes strains compared to vaccine-type strains** » *S. Browall*
